More power to Forklift's battery

BRAVO INNOVATION HUB

**How long
does its
battery
last?**

**It depends
how you
use the
forklift**

Not enough!

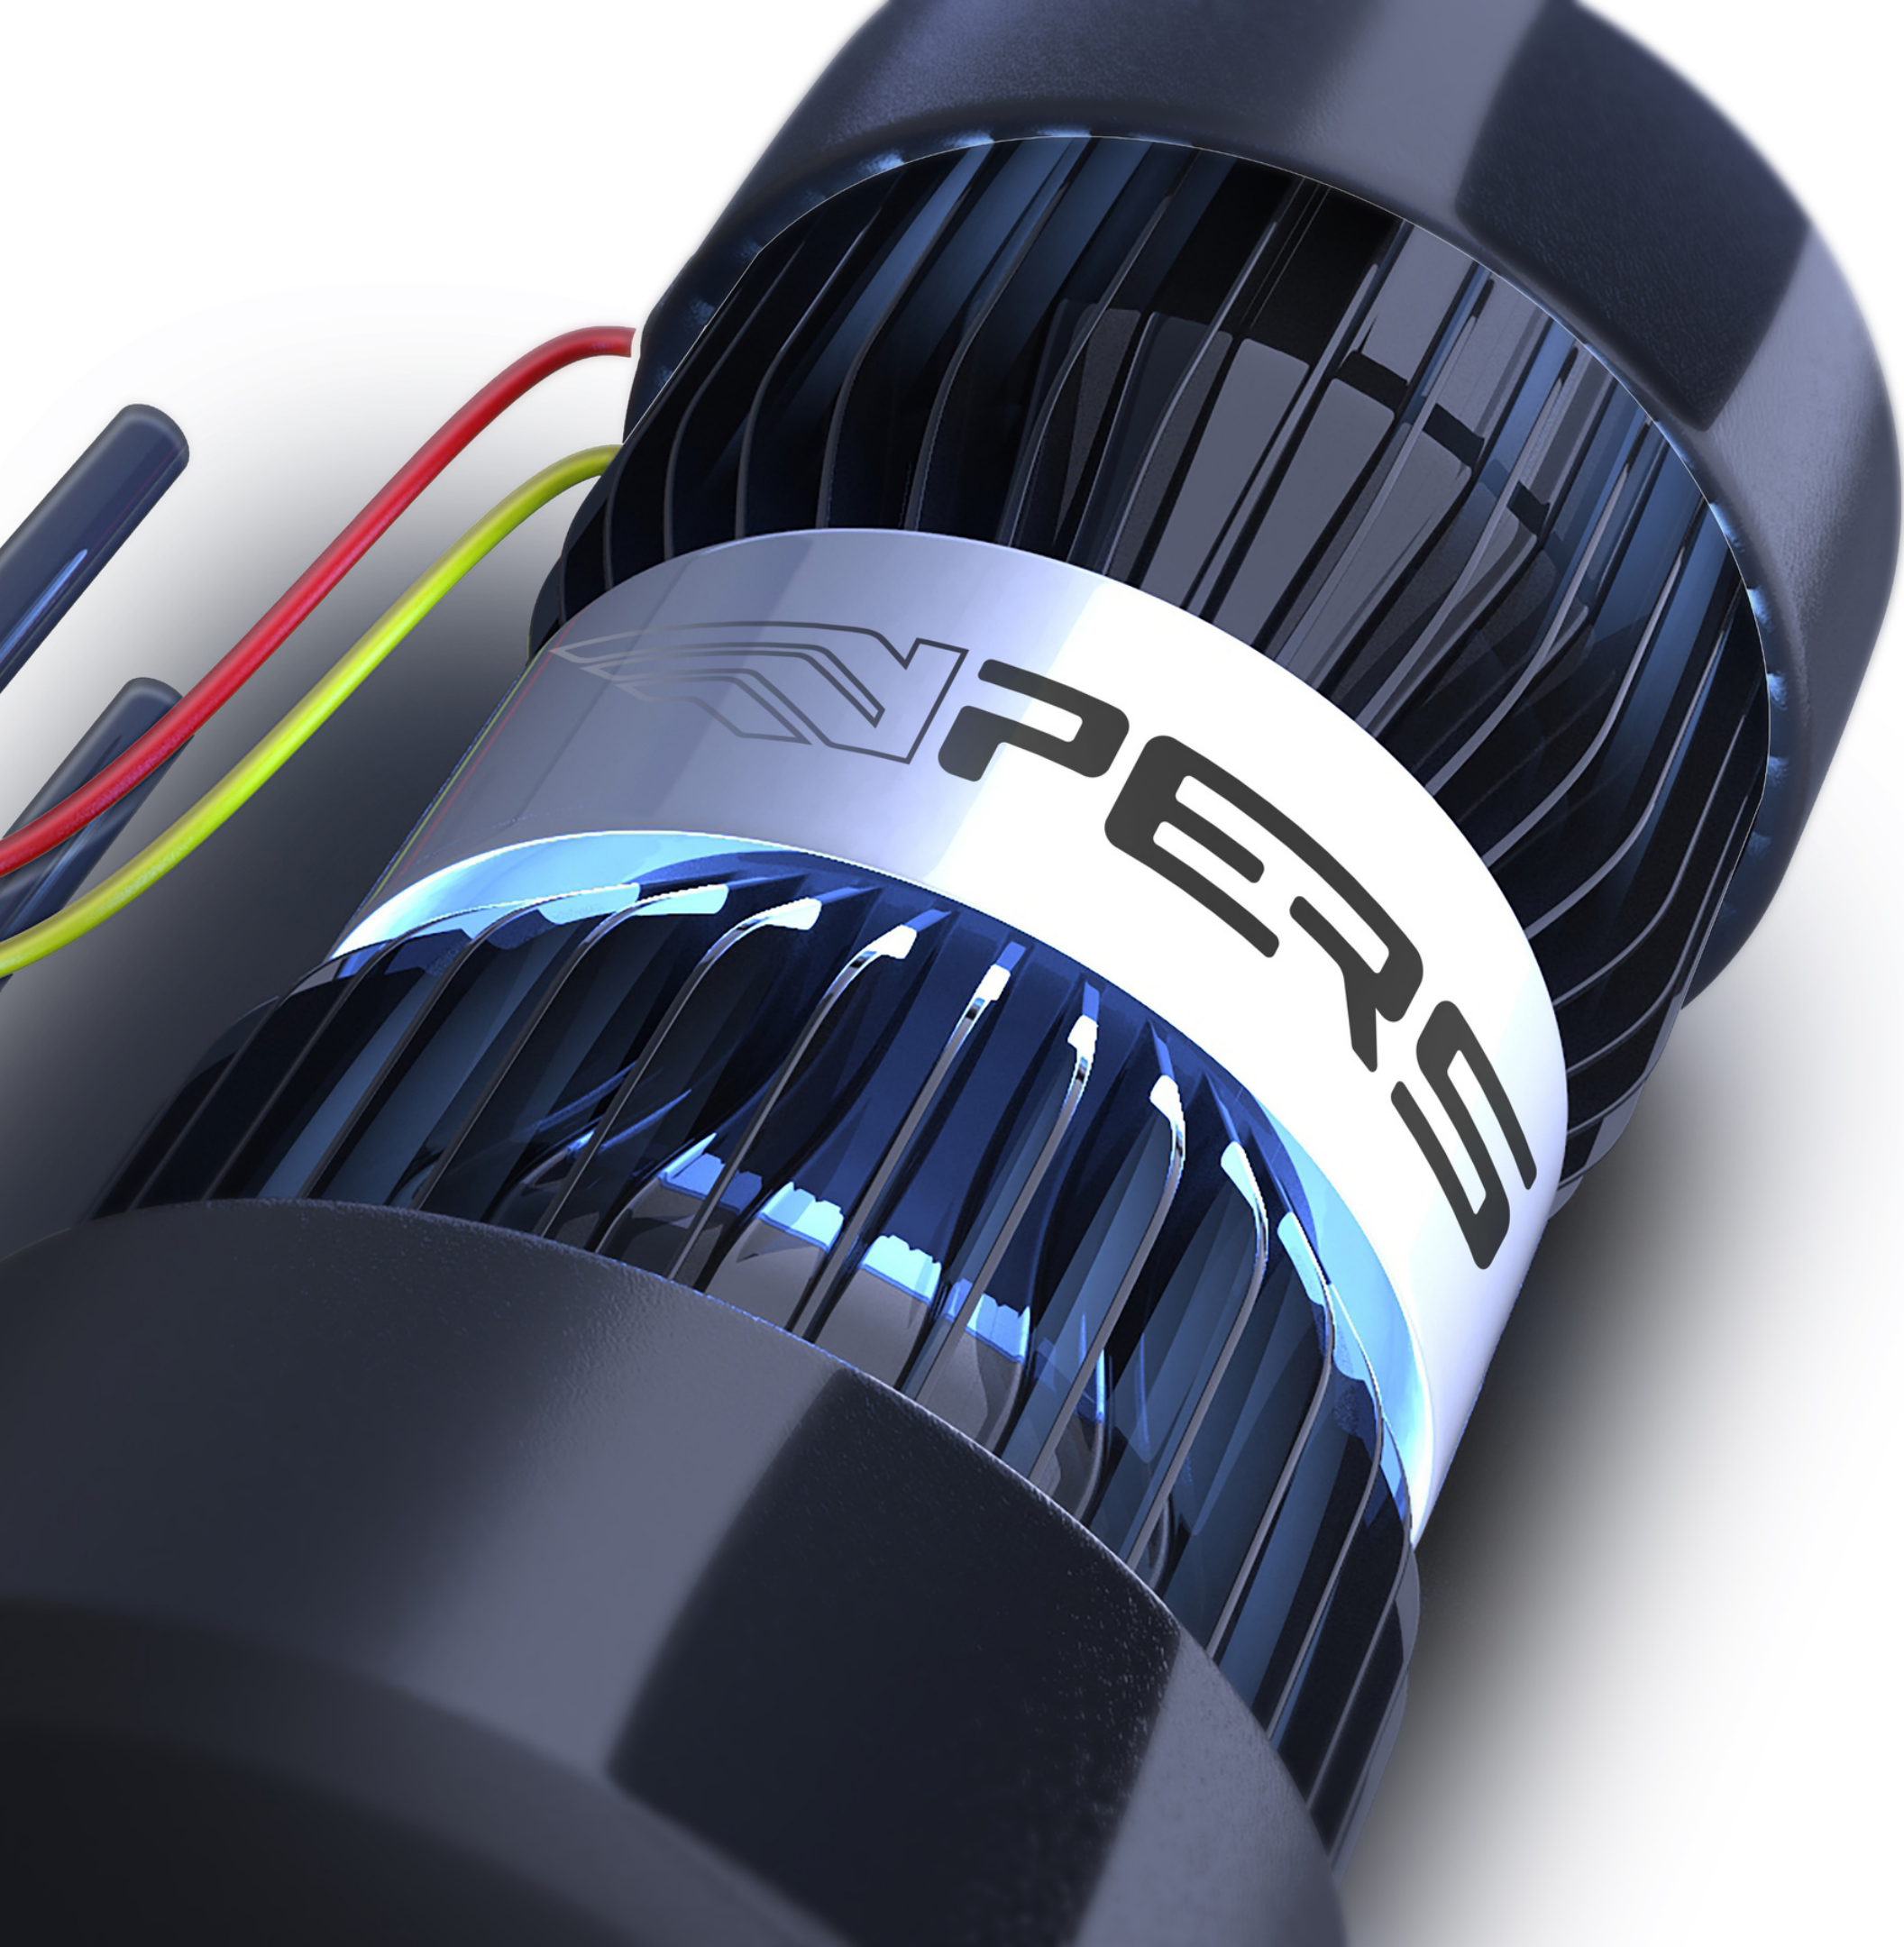

Pains

NPERS

Logistic Industry Pains:

- **Minimize downtime**
- **Maximize energy efficiency**

Solution

Benefits

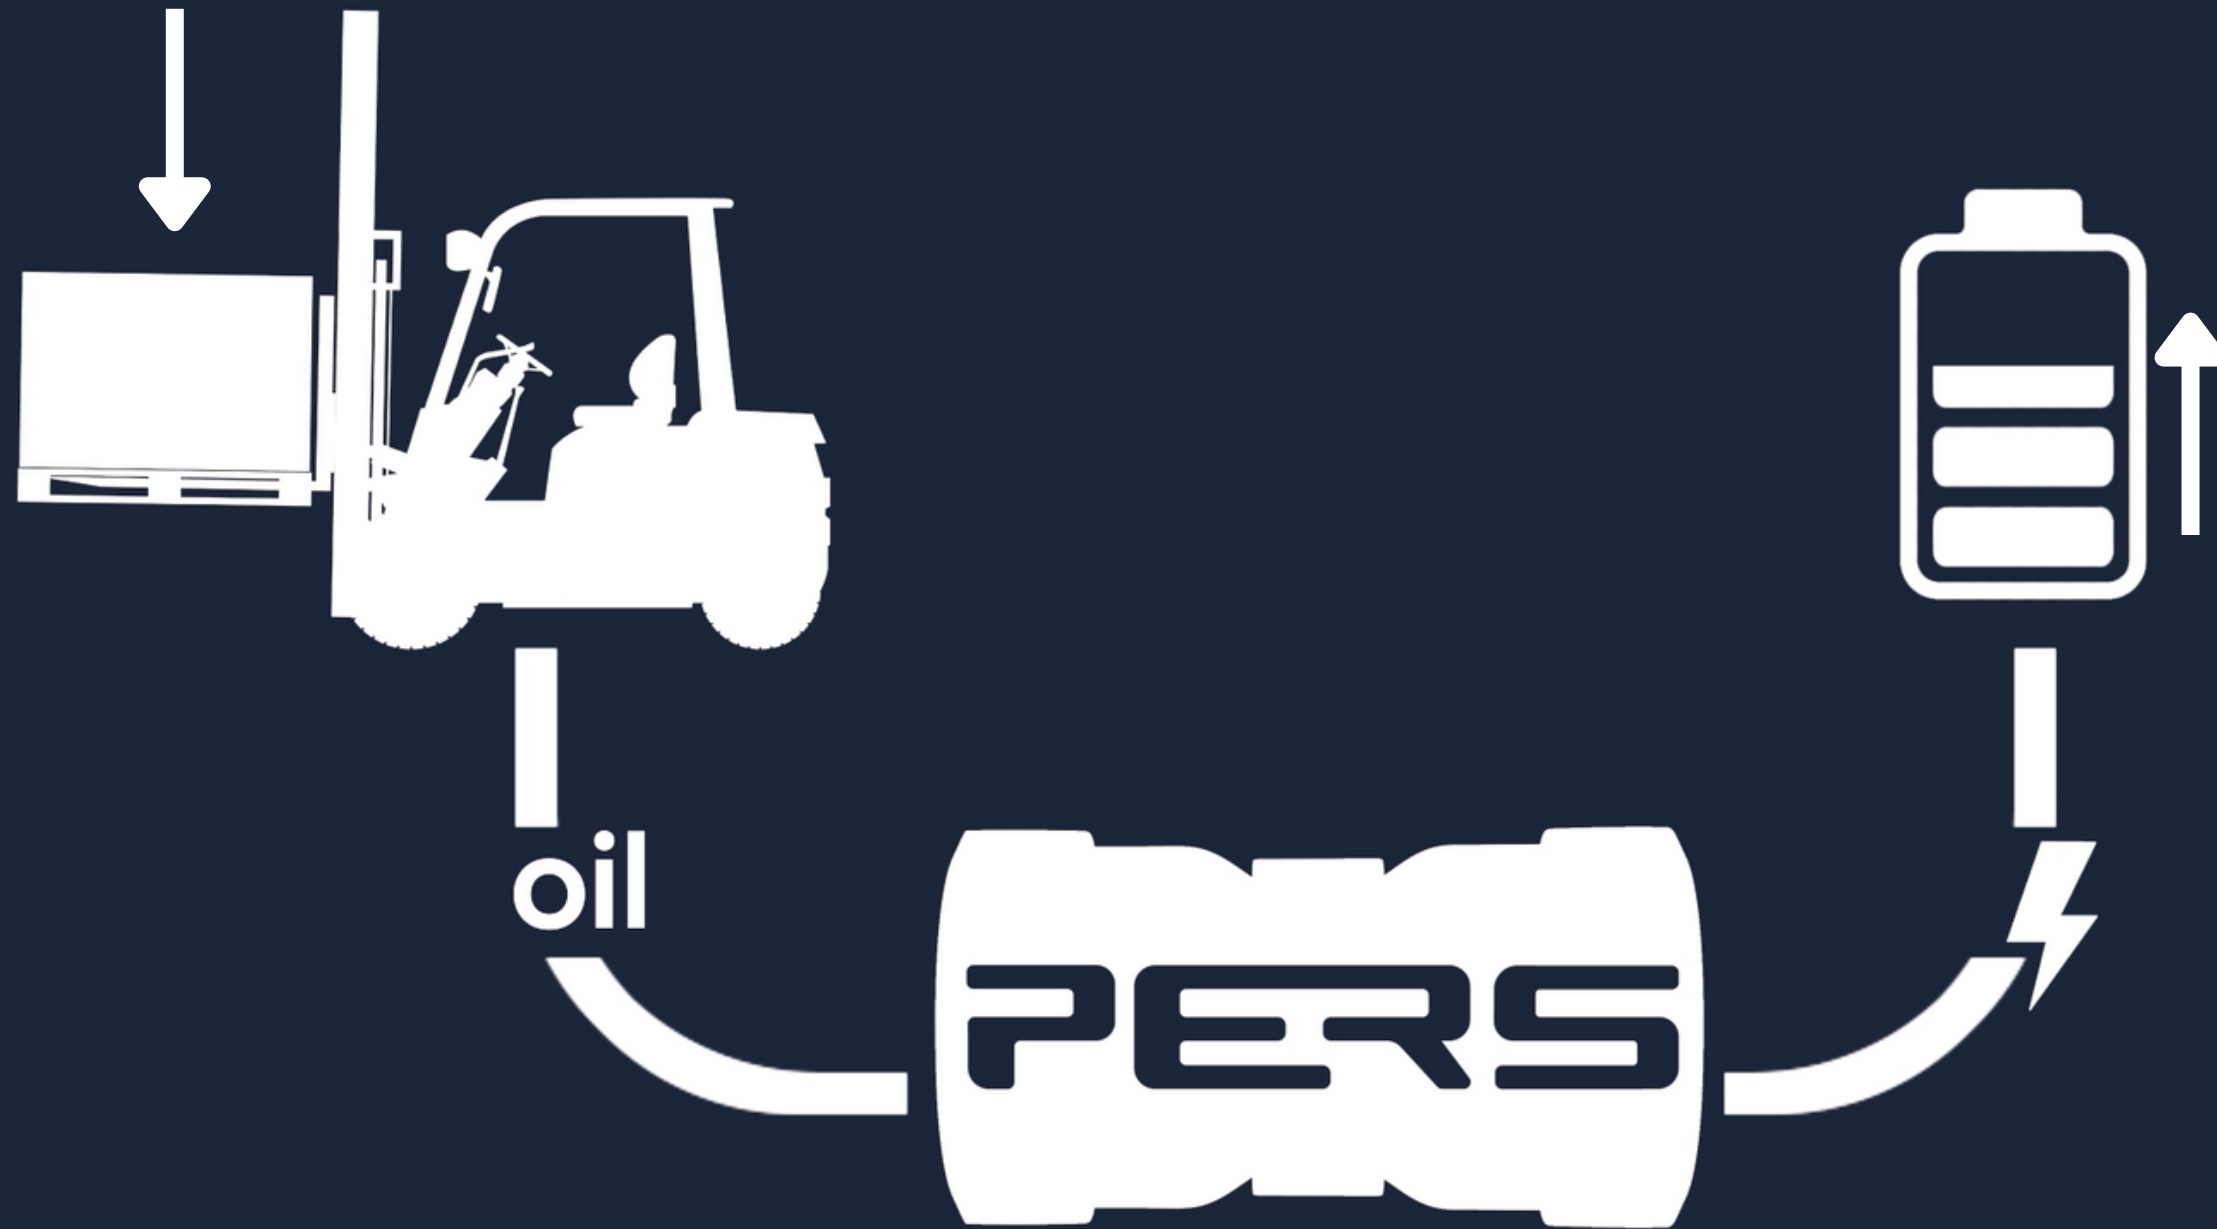

NPERS

- **Extended up-time: 20%**
- **Energy saving: 25%**
- **CO2 saved: 18 tons/year**
- **Fewer forklifts: 2**

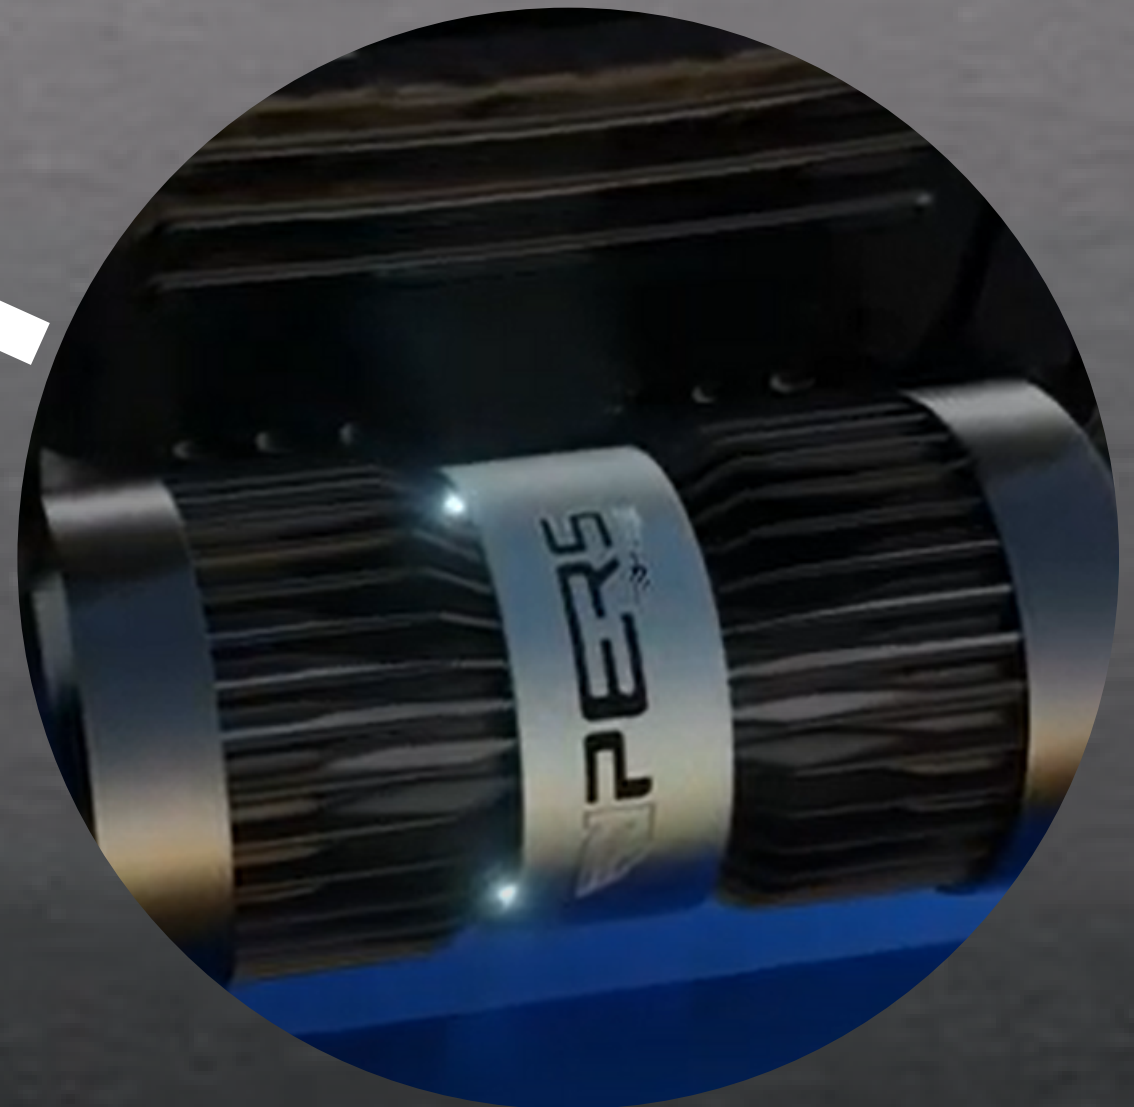

Plant with 20 forklifts, 275 days and 2 shifts

Working principle

- Energy **recovery**
- Energy **storage**
- Energy **supply**
- Cloud **connection**

**Retrofitting on
new and working
forklifts**

Clients

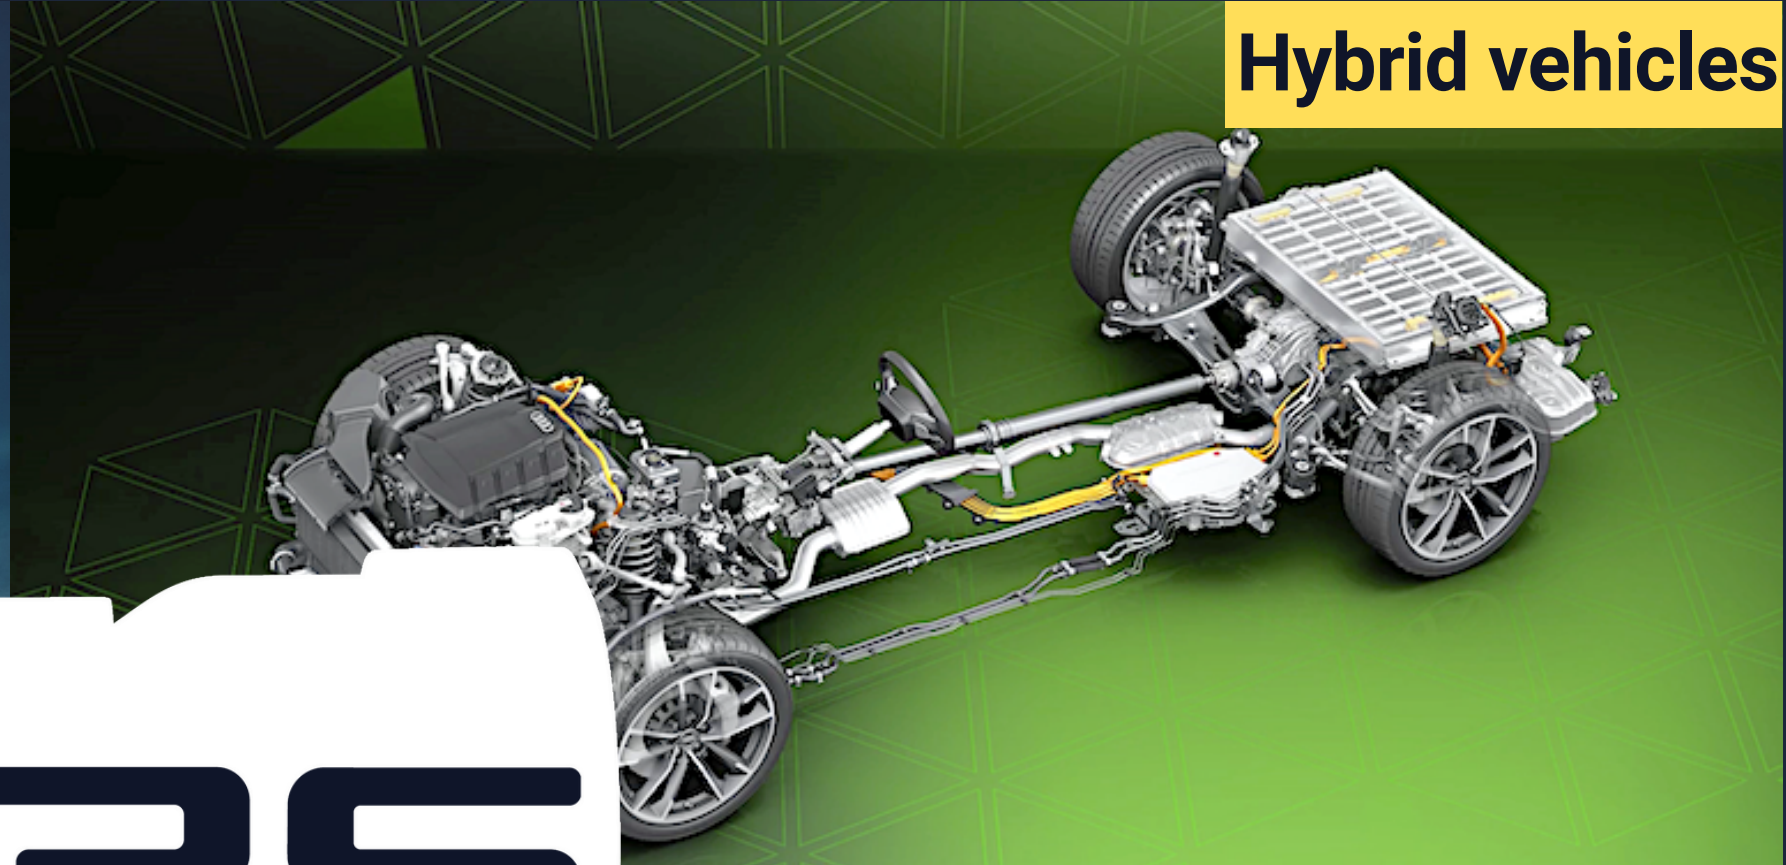

- Forklift **renters**
- Forklift **manufacturers**
- Hydraulic part **manufacturers**

Hybrid aircrafts

Hybrid vehicles

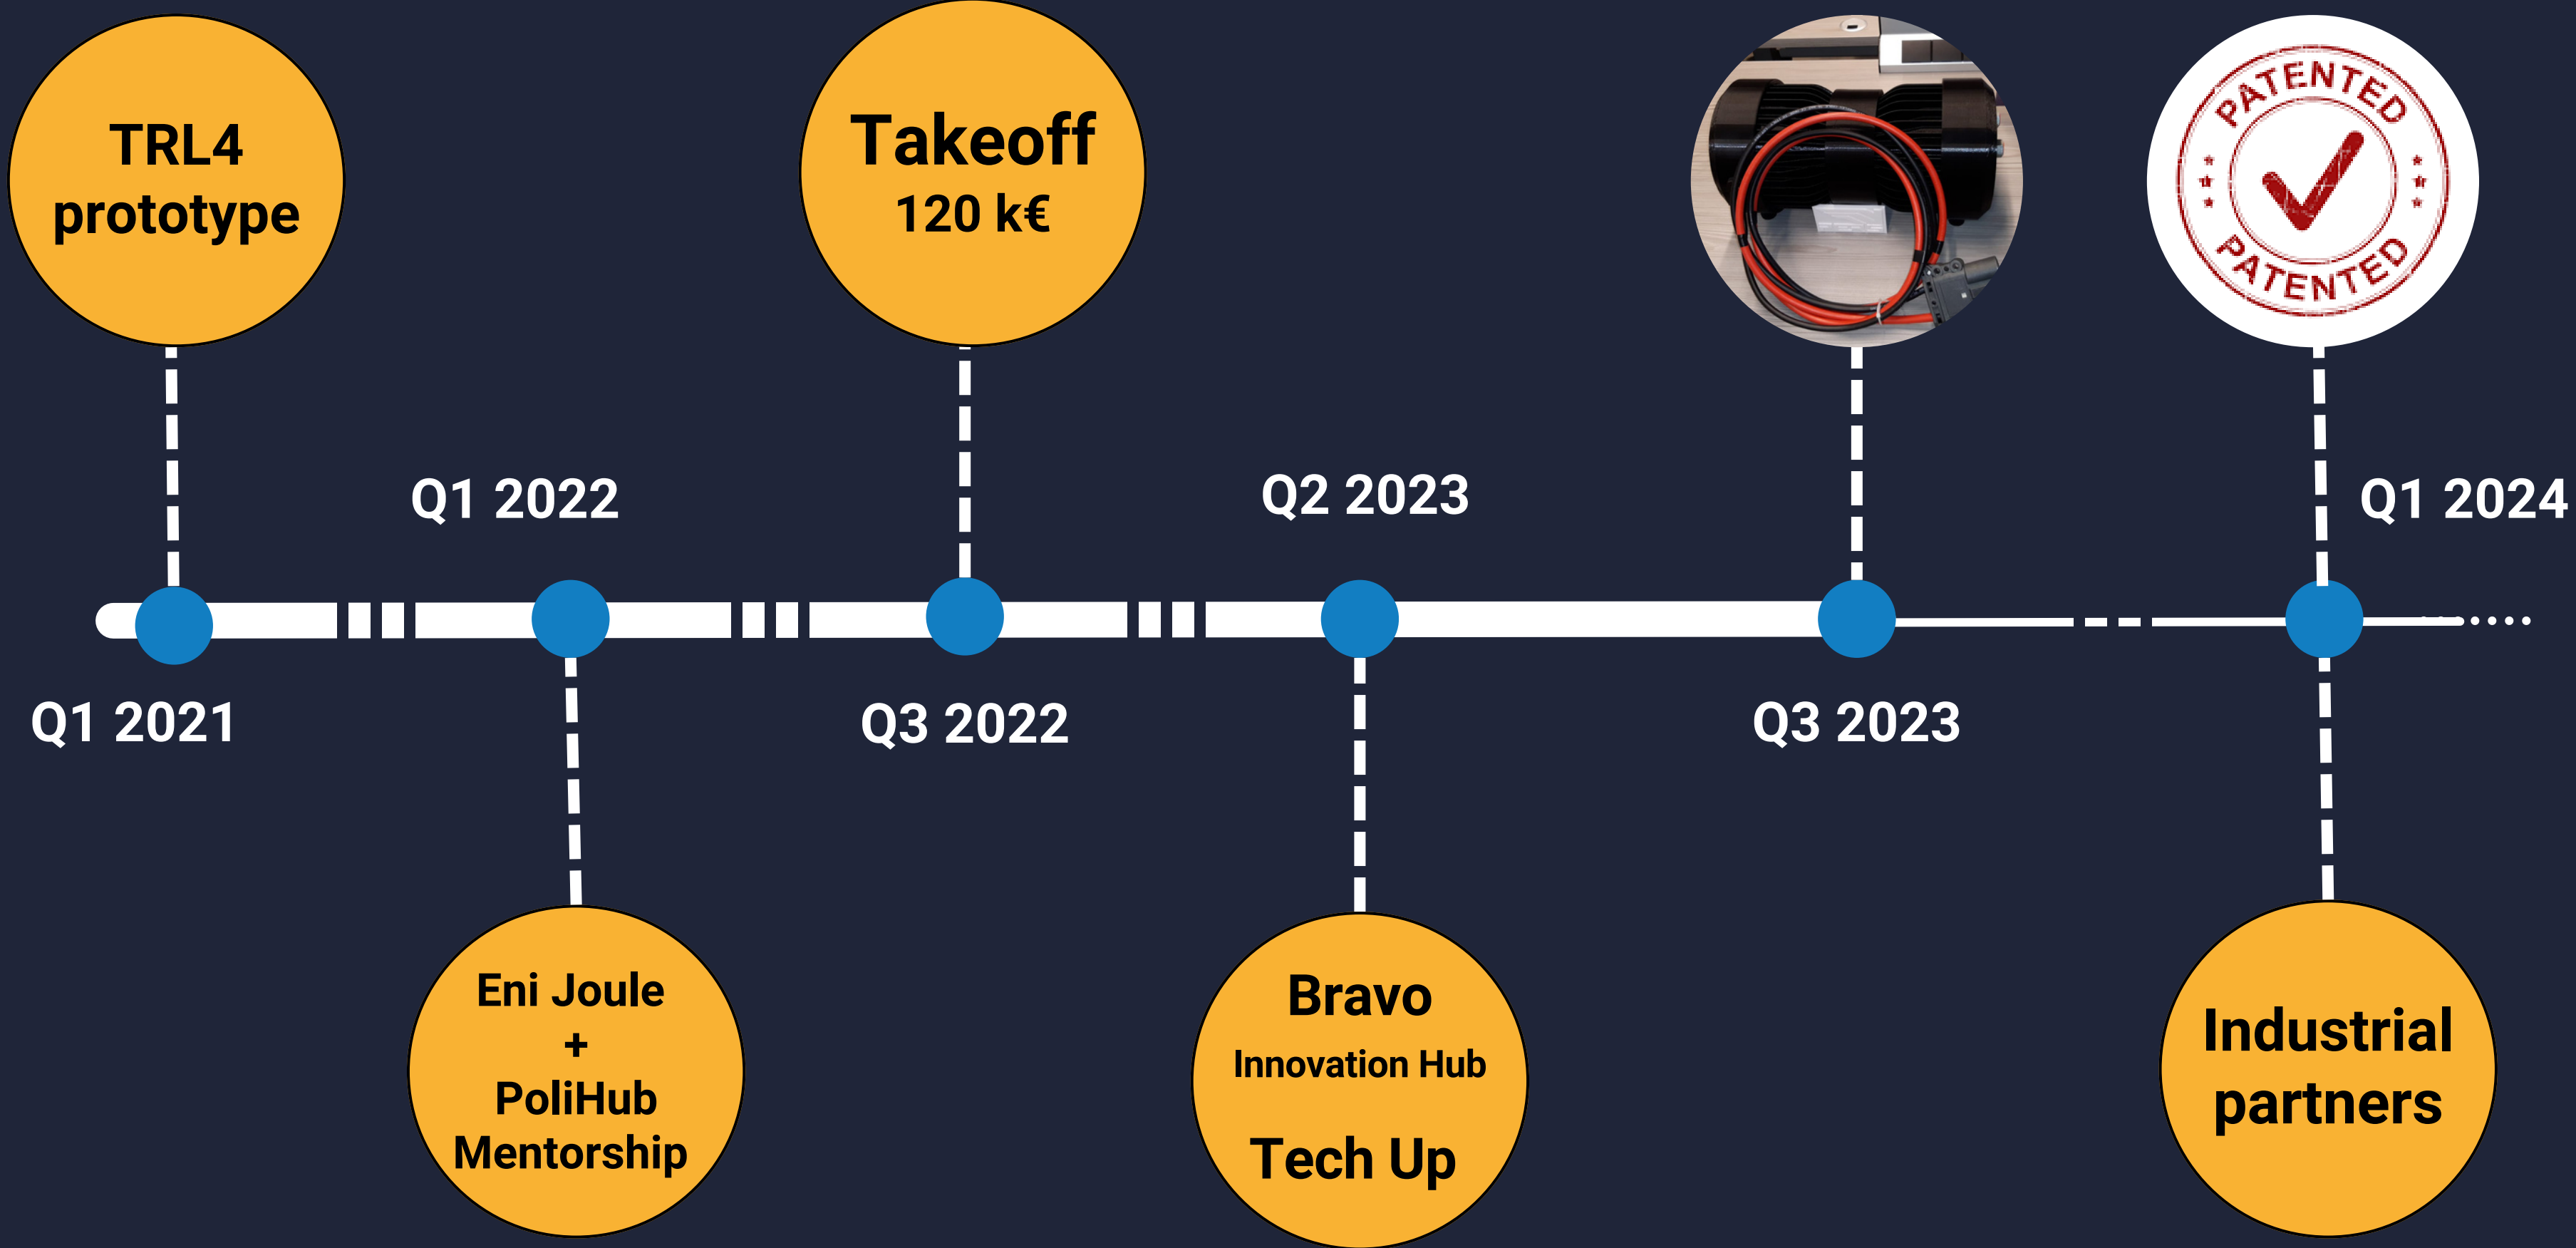

Elevators

Autoclaves

PERS

Needs

- **Industrial partners to test early prototypes**

Needs

- **Industrial partners to test early prototypes**
- **Industrial partners to join us in PERS developing**

Needs

- **Industrial partners to test early prototypes**
- **Industrial partners to join us in PERS developing**
- **Suppliers of hydraulic components**

Needs

- **Industrial partners to test early prototypes**
- **Industrial partners to join us in PERS developing**
- **Suppliers of hydraulic components**
- **Suppliers of electrical and electronic components**

Needs

- **Industrial partners to test early prototypes**
- **Industrial partners to join us in PERS developing**
- **Suppliers of hydraulic components**
- **Suppliers of electrical and electronic components**
- **Human resources to expand our team**

**We enhance
world's
energy**
